OUR TERMS OF SALE

CONDITIONS
* The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 25 at the thousand rate, nor less than three at the dozen rate.

TERMS
* Three per cent. discount for cash with order; two per cent. discount on all invoices paid within ten days. All bills subject to draft in thirty to sixty days, unless otherwise agreed upon.

SUBSTITUTION
Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

PACKING FOR LONG DISTANCE
To far-off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed this way will so state when they order. We will not be responsible for loss or damage in transit when so packed. We make no charge for packing.

UNKNOWN CORRESPONDENTS
Orders from unknown correspondents must be accompanied by the cash, or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS
No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE
Should be made either in the form of Money Order, Bank draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks are not accepted from unknown correspondents.

SHIPPING FACILITIES
Having the rival express companies—Adams, American, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the National, Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS
All goods are sent by express unless otherwise ordered.

PLANTS, ROSES, ETC., BY FREIGHT.
Plants, Roses, etc., shipped by freight are at purchaser's risk. We will not be responsible for goods so shipped.

NEW LOW EXPRESS RATE
The following notice goes on each shipment of plants, where the expressage is to be collected from purchaser:

EXPRESS AGENTS—LIVE PLANTS

The amount of the expressage you will have to pay will be marked in the blank space on this notice. Whether it is or not and you think you have been overcharged, take a receipt for the payment you make and return to us, and if you have been overcharged, we will refund to you at once, and we will collect from the agent at your end. All the trouble you will be to is to get a receipt and send it to us. The saving under Special Rate Scale N is from 20 to 33 per cent.

PLANTS PREPAID BY EXPRESS
To patrons in California and other far-off points we make a specialty of packing plants so as to make the expressage light, the expressage when prepaid being eight cents per pound. So, if you wish to avoid expressage, when the rate is high, add one-fifth additional to your remittance, and we will prepay same through to destination.

**Remarks**
**The Good & Reese Company’s Roses**

Are justly celebrated from one end of this continent to the other, even extending to all foreign countries. There is a sense of satisfaction when one can truthfully say, “I have the finest business in Roses of anyone in the world.” The great question is, How have you done it? The answer is by supplying Roses that grow and bloom, that are true to name and at as low a cost as good stock true to name can be grown for. Some Roses are dear at any price, all mixed up, and you don’t know what you’ve got. Not so with G. & R. Roses. Every plant is true. We have system to our business and our Rose experts know the how—no guesswork about it. Our Rose trade uses each year some five million plants. Easy to say, but not so easy to grasp. We know with our customers that no Roses are produced that will equal G. & R. quality stock. We thank one and all for past favors. Our aim will be to please you even better in the future than in the past.

**Why Our Rose Trade Is By Far The Largest In The World**

**THERE IS A REASON**

Because Our

**ROSES**

Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We figure a profit on everything we sell, and we do not care to sell unless we can make a decent profit to which every good business man is entitled. The best and most expert buyers in the world never make a contract with the lowest bidder, because on the average they know it doesn’t pay. We invite correspondance on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require, and we will give you the very best prices at which first-class stock can be sold.

**“Not How Cheap—But How Good”**

**THE G. & R. QUALITY ROSES**

Don’t get your headlight behind—light up ahead and keep going. If you hold a penny close to your eye, of course you can’t see a dollar behind it. Save a penny and lose a dollar? That’s what some buyers do who insist upon the cheapest they can get in Roses. It’s false economy. It is the net profit that counts, and not so much the first cost; therefore buy the best you can and insist upon getting it. Did you ever try our first propagating of Roses? A great big difference over the second propagation. When you plant them in the field you can use your cultivator at once without fearing to cover them up. Quite a contrast to the mealy little things that you can buy for a song and can’t hardly see them in the row after planting, and what’s worse don’t know what varieties you have. Probably you could pick out a rainbow collection from every sort planted. Write for prices on Roses—Good Roses, the kind that please.
ROSE NOVELTIES FOR 1912

And Some of the Newer Roses of Recent Introduction — Also Some That Are Scarce

The mistake made by many growers of Roses is their failing to test the new Roses. This is obvious from the fact that there is no other way of testing it. There is no other way of finding out when the money, effort, and time that is poured into the development of a new Rose is justified. And if you buy new Roses because the price asked seems high, this is part in what we would have the greatest in the H. P. class we would be content with Paul Neyron, John Hopper and General Jacqueminot and have the enjoyment of such grand late bloomers as Kariernick, and J. B. Clark. In the Hybrid Tea class we have missed the great beauty of Etoile de France and of Chateau Des Clos Vougeot and Madame Segond Weber would have really been a Rose tragedy. And then in the Tea class, who dare say that he is not a better man to have seen the charm of a Friederich Nietzsche, and to have received the benediction from a Helen Good. These are only a part of the really good things recently introduced, and we all look forward with pleasure and for the replenishment of your purse, plant new Roses. Some may perhaps disappoint you, as all may not do well, but if you get one variety out of ten that will thrive with you, you should feel well repaid, as your outlay with a modest purchase for a trial or test purpose will not embarrass you. We will test a few of the new Roses by an actual test in the garden, keeping data on them covering every point. In other words, we know our Roses.

HYBRID TEA ROSES = =Newer Varieties

ANDRE GAMON (Pernet Ducher, 1908.) — A very vigorous grower of erect, branching habit; fine bronzy foliage, with long finely shaped buds; the flowers are large, full and globular, carried well above the foliage on rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose it becomes popular only when the soil is well acid and soft color and its remarkably free flowering qualities and hardness. 21/2-inch pots, 75 cents per dozen; $4.50 per hundred. 4-inch pots, $2.00 per dozen.

BEATRICE (Wm. Paul, 1909.) — Deep rich pink, shaded with vermilion when opening, passing to flesh color when fully developed, flowers produced on very erect stems. 21/2-inch pots, 75 cents per dozen; $5.50 per hundred. 4-inch pots, $2.50 per dozen; $20.00 per hundred.

CHATEAU DES CLOS VOGUEOT (Pernet Ducher, 1908.) — You will all be looking for the black Rose and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy mohair. From deepest violet, nowon-red to black-christian. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the richest colored of all Roses, being fifty per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. With us the foliage of this Rose is absolutely resistant to black spot and mildew; in a class by itself for this reason alone. Keep your eye on this Rose, as it is a wonder; named in honor of the historic Chateau of famous old French wine. 21/2-inch pots, $1.50 per dozen; $10.00 per hundred. 4-inch pots, $2.50 per dozen; $20.00 per hundred.

COLONEL LECLERC (H. D. Roche, 1908.) — Stems, of erect, finely branching and profuse habit; fine buds borne singly, flowers large and finely formed; color a lovely cherry pink, with a fine ruffled edge. 21/2-inch pots, 75 cents per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen.

CROWN PRINCESS CECILE (Schulte, 1908.) — Delicate silver-pink; becoming opening to large flowers carried on stiff stems. A free and continuous bloomer. 21/2-inch pots. $1.00 per dozen; $8.00 per hundred.

DOROTHY PAGE (Roberts & Dickson, 1917.) — Coppedypink suffused apricot-yellow, petals very large; a very unique Rose possessing remarkably beautiful shades of color. An ideal garden Rose; of wonderful charm. Gold medal N. R. S. 21/2-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen.

ENTENTE CORDIALE (Pernet Ducher, 1909.) — A charmingly beautiful Rose of magnificent size and form; bud long and pointed, on long stiff stems; flowers large, globular and full; color creamy-white with sulphur-yellow center. From Chatenay it has inherited wonderful vigor and floriferousness. 21/2-inch pots. $1.00 per dozen; $7.00 per hundred. 4-inch pots. $2.00 per dozen.

FLORENCE EDITH COUTHWAITE (A. Dickson, 1908.) — An exquisitely beautiful bedding variety that can be classed as a substantial "Fancy" Rose. The flowers are large, full, and produced perfectly in disbudded form, the edges of the petals beautifully ruffled. Color deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best. 21/2-inch pots, 75 cents per dozen; $5.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

FRAU GEHEIMRAT DR. STAUB (Lambert, 1908.) — Deep brilliant pure red without shading; large, full, of fine form; sweetly perfumed. A very good Rose. 2-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $20.00 per hundred.

F. R. PATZER (Alex. Dickson, 1908.) — A most beautiful and distinct Rose of very fine flowering character. The blooms are produced with stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink. As the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture 21/2-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.50 per dozen; $25.00 per hundred.

GEORGE C. WAUD (Alex. Dickson, 1908.) — Orange-vermilion, remarkably distinct and beautiful; large, full, well formed, flowers freely; highly tender. Named after the best. Gold medal N. R. S. 21/2-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

HECTOR MACKenzie (Alex. Dickson, 1908.) — Deep pink changing to silvery-crimson. Flowers large and full, of perfect globular form, both free and fragrant, strong and vigorous and very free branching. A super Rose. Claimed to be a fine free flowerer. 21/2-inch pots, $2.00 per dozen; $15.00 per hundred.

HELEN WATTINE (Gourret and Notting, 1910.) — White with lemon-yellow center, very double and of the largest size, opening as flat as a plate; a vigorous grower and a very promising bearer. Has the beautiful form of Malmaison. 2-inch pots, $1.50 per dozen; $12.00 per hundred.

HILDA (Meyers and Santman, 1911.) — This is a sport from My Maryland, enhancing that variety by being much darker in color. A superb Rose. 21/2-inch pots, $2.00 per dozen; $12.00 per hundred. 4-inch pots, $3.00 per dozen.

JEGUITE (Pernet Ducher, 1908.) — Chrome-yellow center, deepening to reddish-orange; edges of petals creamy-yellow, large and full; extremely beautiful. 21/2-inch pots, 75 cents per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

JONKHEER J. L. MUCK (Leenders, 1910.) — This grand Rose is the strongest growing in the Hybrid Tea class. The blooms which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color clear imperial-pink; a glorious flower. Awarded two gold medals, one silver medal and five first prizes in Europe. We can confidently recommend this sterling novelty as a most valuable addition. 21/2-inch pots, $2.00 per dozen; $12.00 per hundred.

KAISER WILHELM II (Welter, 1910.) — Growth vigorous and upright, flowers large and very full, buds elongated, always opening well; color the richest shade of velvety-crimson, shaded black. Excellent garden Rose. 21/2-inch pots, $4.00 per dozen.

LADY ALICE STANLEY (McGreedy, 1909.) — The blooms are very large, very full and of great substance. The petals are shield-shaped, flat, and free from perspiring; the underside of petals is deep coral-rose, inside delicate flesh flushed deeper pink. A remarkably attractive and pleasing combination of coloring and quite distinct in every way. Every shoot is crowned with a flower bud. A grand garden Rose. Awarded the gold medal of the N. R. S. 21/2-inch pots, $5.00 per dozen; $20.00 per hundred. 4-inch pots, $3.00 per dozen.
HYBRID TEA ROSES—Newer Varieties—Continued

LADY URSULA (Alex. Dickson, 1908.)—Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Keep you eye on this lady, because she's going to crowd somebody out of the line. 2½-inch pots, 60 cents per dozen; $4.50 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

MADAME LEON SIMON (Lambert, 1910.)—Growth vigorous and upright; flower buds long and pointed. Color dark rose with yellow center, reverse of petals carmine; very floriferous. Superb. 2½-inch pots, $2.50 per dozen.

MADAME MAURICE DE LUZE (Pernet Ducher, 1907.)—Deep rose-pink with chocolate-carmine center; very large cup-shaped flowers carried erect. Extra fine. 2-inch pots, 75 cents per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen.

MADAME MINA BARBANSON (Soupert and Notting, 1901.)—Large, full, silvery-pink; free bloomer; very fragrant. 2½-inch pots, 75 cents per dozen.

MADAME P. EULER (Guillot, 1908.)—Vermillion-pink changing to silvery-pink; very large, very full and possessing great lasting properties, perfect form; fragrant. Awarded first prize and gold medal at Clermont. 2½-inch pots, 60 cents per dozen; $4.50 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

MADAME RAVARY (Pernet Ducher, 1899.)—Not a new Rose, but not largely disseminated in this country. In growth and habit it is much like Madame Caroline Testout, and will always command a good price, being difficult to propagate. Long pointed buds of beautiful golden-yellow, opening to large, full orange-yellow flowers; very free flowering. Superb. 2½-inch pots, $1.25 per dozen; $10.00 per hundred.

MAYFLOWER (Hill, 1910.)—A strong growing free flowering Hybrid Tea. The bud is long and pointed and opens into a flower of unusual beauty. The back of the petal is copper and bright pink, the upper surface peach and apricot. 2½-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen.

MADAME SEGOND WEBER (Soupert and Notting, 1908.)—One of the grandest novelties of recent years; everybody is talking about it and the more one knows of this wonderful Rose the more they will talk about it, and what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great grand garden Rose; awarded two gold medals. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

MADAME VALERE BEAUMEZ (Schwartz, 1908.)—Cream, yellow and orange are the colors in this queenly Rose. All the tints exquisitely beautiful, form very full and nicely rounded; a strong grower. We feel sure that this Rose will rank in the dozen best bedders. "Standard" in all necessary qualities, "fancy" in its coloring. 2½-inch pots, $2.00 per dozen.

MARY, COUNTESS OF ILCHESTER (Alex. Dickson, 1909.)—Warm crimson-carmine flowers of great size with large smooth, circular petals, upright growth, deliciously scented. A variety of much merit and distinction 2½-inch pots, 75 cents per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

MRS. AARON WARD (Pernet Ducher, 1907.)—This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. No wonder everybody that sees it falls in love with it; one of the most beautiful Roses in existence. 2½-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $3.00 per dozen; $20.00 per hundred.

MISS CYNTHIA FORDE (Hugh Dickson, 1909.)—This Rose possesses in a superlative degree the essential points of an ideal garden Rose, viz., size, form, brightness, vigor and habit. In color it is a deep brilliant rose-pink, very large, perfectly formed and very full. It is sweetly perfumed and lasts a long time in good condition. Gold medal. N. R. S. 2½-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen.

MRS. ARTHUR ROBERT WADDELL (Pernet Ducher, 1908.)—Rosy-scarlet buds opening reddish-salmon, reverse of petals rosy-scarlet; semi-double flowers. A good decorative variety. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.
HYBRID TEA ROSES---Newer Varieties---Continued

MRS. DAVID JARDINE (Alex. Dickson, 1908.)—Delightful shade of bright rosy-pink, shading in the outer petals to salmon-pink; large, perfect form; very highly perfumed. A grand Rose in every way. Superb. Unquestionably the finest all around general purpose Rose. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

MRS. EDWARD J. HOLLAND (McGredy, 1909.)—Of the “Kaiserin” type of Rose. The color is a beautiful dark salmon-rose shaded lighter towards the edges; perfect in both shape and form, with an unusually high pointed center. The petals are of great substance and beautifully arranged, forming a model flower of exquisite beauty. Because of the marvelous freedom with which it produces blooms throughout the whole season it will prove one of the finest and most striking garden Roses yet raised. Awarded gold medal N. R. S. 2½-inch pots, $5.00 per dozen.

MRS. FRED STRAKER (Alex. Dickson, 1910.)—The blooms are produced in most extraordinary profusion throughout the entire season. The color of the young flower is orange-crimson; as the bloom develops it becomes silvery-fawn on front of its petals and delicate orange-pink on the back. Its long and elegant buds come with a perfectly spiral finish which so closely blends or co-mingles its warm and charming colors as to give it a chatoiement (play of colors) all its own; deliciously fragrant. It is not too much to say “Masterpiece.” 2½-in. pots, $5.00 per doz.

MRS. STEWART CLARK (Hugh Dickson, 1907.)—Color varying from bright cerise-pink to brilliant rose or cherry-pink, with distinct zone of white at the base of each petal. Flowers of immense size and great substance. A grand Rose of delicious perfume. Gold medal N. R. S. 2½-inch pots, $5.00 per dozen.

MRS. WAKEFIELD CHRISTIE MILLER (McGredy, 1909.)—Color inside of petals soft pearly-blush shaded salmon, outside of petals clear vermilion-rose, a marvelous and delightful scheme of coloring which makes it quite the most remarkable variety in the class yet raised; of enormous size, it is bound to become a famous garden Rose. 2½-inch pots, $4.00 per dozen.

MY MARYLAND (Cook, 1909.)—An American Rose that has jumped into popular favor at once, sweeping the decks clean of both Europe and America. Color glowing, intense pink; large, full and of fine form. The grand Rose in growth and bloom that we know. 2½-inch pots, 75 cents per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

OLIVIA (Hill, 1907.)—The ideal red bedding Rose; was always just a little ways ahead—never quite reached. Such varieties as Meteor, Helen Gould, General McArthur, Gruss an Toplits, Etoile de France each lacked something to make them ideal. Rhos Reid came nearer the mark in some localities, but now comes Olivia, coming under the wire first as an easy winner. It has more petals in it than General McArthur, and a shade brighter in color than Rhos Reid, but has both backed off of the boards when it comes to free blooming. A superb Rose. 2½-inch pots, 60 cents per dozen; $4.50 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

PRESIDENT TAFT—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here while some of you may not admire the president himself, you will one and all admire the Rose given his name. It is without question the most remarkable of all pink Roses, and is of shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Our Mr. President, the good, who is probably familiar with more Roses than any man in America, says: “Talk all you want to about the President Rose, and then you will not say enough.” Do not confound this Rose with Leuchtfeuer, which some have attempted to rename President Taft. 2½-inch pots, 60 cents per dozen; $4.50 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

PRINCE ENGLEBERT CHARLES D’ARENBERG (Soupert and Notting, 1910.)—Brilliant fiery scarlet shaded maroon, very large and massive, of perfect form; vigorous in growth. A decidedly good Rose. 2½-inch pots, $3.00 per dozen.

QUEEN BEATRICE (Kramer, 1907.)—One of the very finest bright pink Roses, the color being very clear, very much the shade of Mrs. Leuchtfeuer. Buds and flowers are of fine form, very free in bloom. A grand Rose. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $2.00 per dozen.

RADIANCE (Henderson, 1909.)—A brilliant rose-carmine, displaying beautiful rich and opaline-pink tints in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. Superb. 2½-inch pots, $1.00 per dozen; $6.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

RHEA REID (Hill, 1908.)—This is the new red forcing Rose; flower large and double, very free blooming and exquisitely fragrant, rich dark velvety-red; a good red garden Rose. The flowers are double, of fine size, while the color is all that is to be desired. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $2.00 per dozen; $15.00 per hundred.

ROSE QUEEN (Hill, 1911.)—This new forcing Rose has the startling shade of pink found in a perfect Testout, with yellow standard at the base of the petals, which is a guarantee that the flower will never “bleed” with age, and it will not fade in bright sunlight. The bud is very long, slender and pointed, and opening shows a heart glowing with color. Rose Queen won the prize at the Chicago show, 1910, as the best undissemiinated seedling. 2½-inch pots, $2.50 per dozen; $15.00 per hundred. 4-inch pots, $5.00 per dozen.

The color is irresistible. The plant grows like a weed and the flowers are nearly "im mortal" in their lasting qualities. NEWER VARIETIES
Hardy Climbing Roses, Newer Varieties—Concluded

LYON RAMBLER (Dubrul, 1909.)—Many claim that this Rose will make Dorothy Perkins step some to keep up with the procession of Pink Ramblers. It has a very vigorous climbing habit, flowers abundantly and lasting a long time. The trusses, which are immense, contain from thirty-five flowers. Color bright vivid pink, shaded carmine, a wonderfully attractive color. Labeled silver medal at Lyons show. 2½-inch pots, 60 cents per dozen; $1.00 per hundred. 4-inch pots, $2.00 per dozen.

TAUSENSCHOEN or THOUSAND BEAUTIES (1909.)—The Climbing Rose that comes to us from Germany. The flowers upon first opening may be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as Crimson Rambler or Dorothy Perkins. We wrote the above a year ago, and now we can add that this Rose is sweeping the country like a prairie fire, You can work it all you want to and then you will have left something unsaid. Simply a wonder. 2½-inch pots, 50 cents per dozen; $3.50 per hundred. 4-inch pots, $1.50 per dozen; $9.00 per hundred.

VEILCHENBLAU, The Blue Rose (Schnidt, 1909.)—The most wonderful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamt of. Veilchenblau or Violet Blue is the most beautiful color of flowers. This Rose is going to have a larger sale by far than Crimson Rambler. Have we seen it flowers? Well, we guess yes, and our word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or a hundred feet a bush of the Blue Rose in full bloom will startle you. When such firms as Ellwanger and Barry, of America, and Alex. Dickson and Sons, of Ireland, give this Rose an uncontested prize, it's about time the pleading nurseryman to stop, look and listen. A seedling from Crimson Rambler, semi-double flowers larger than that variety, introduced in large trusses. This Rose first opens pink, but quickly changes to violet-blue. The introducer describes it as being reddish-lilac changing to amethyst and steel blue. Very and extremely pleasing. A wonder. Going to sell? Yes, everybody will want and will demand the Blue Rose. 2½-inch pots, 60 cents per dozen; $4.00 per hundred. 4-inch pots, $1.50 per dozen; $10.00 per hundred.

WHITE DOROTHY PERKINS (R. R. Cant, 1909.)—It has been the cry of nurserymen for years for a white climber that would blend with crimson Rambler, and now we have the pleasure of offering this White Dorothy Perkins that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. 2½-inch pots, 60 cents per dozen; $4.00 per hundred; 4-inch pots, $2.50 per dozen; $15.00 per hundred.

TAUSENSCHOEN or Thousand Beauties.

HYBRID TEA ROSES—Standard Varieties

This is a class of recent creation, embodying the delicate shades and peculiar fragrance possessed by the Tea Roses combined with the vigor and more pronounced pink and crimson shades of color previously confined to the Hybrid Perpetual class. In our opinion the Hybrid Teas will supersede all others because of their superior constitution and marvelously free flowering qualities. In a sentence it may be said they combine all the better traits of the two classes from which they sprung, altogether a great advantage. Almost all are highly perfumed, an attribute absolutely essential to a perfect Rose.

ENTENTE CORDIALE—See Novelties, page 4.

ETOILE DE FRANCE (Pernet Ducher, 1897)—The gold medal Rose of France. It was presented to the raiser, J. Pernet Du cher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large, long, and full; a very fine flower. Its petals are a lovely shade of yellow, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extremely successfully, the entire country has been affected by its beauty.

The opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is destined to become the “Queen of the Roses.” It is a good grower, a fine bloomer, fine rich color, deliciously fragrant.

What more can be said of a Rose? 2½-inch pots, 50 cents per dozen; $3.00 per hundred. 4-inch pots, $1.50 per dozen; $12.00 per hundred.

Summer Bedding Roses for Cut Flowers

Summer Bedding Roses for Cut Flowers

MR. FLOРИST, YOU HAVE NO EXCUSE TO BE WITHOUT ROSES DURING ANY DAY OF THE SUMMER AND PLENTY OF THEM.

The planting of Roses in the garden for summer cut flowers has become in recent years a large business. We sell as many as twenty thousand plants to one concern for this purpose. The best proof that it is profitable is the fact that the firms who first made the trial are increasing their plantings, while many others are going into it. You say, "How shall we winter them?" We reply to let your wheels revolve fast enough to realize that you can buy Roses as cheaply as you can buy Salvia and Geraniums, and if you should fail to winter the Roses, no serious loss is sustained. Another thing, the Tea and Hybrid Tea Roses will produce more blooms twice over than any Geranium. No florist has an excuse for being out of Roses throughout the entire summer season, and your blooms will be finer than any ever cut under glass.

How to Obtain These Results

Select land, if possible, with a clay subsoil and a clayey loam top soil. Roses always do best where their roots can strike down and take hold of clay. Give a good coat of manure and plow deep. Always plant G. & R. own root two-and-one-half-inch plants. Time of planting should be governed by the locality (in our vicinity May 1st to 10th). Should the spring be early the planting may be done April 15th. Early planting, while the weather is cool, assures an active root action, and the plants are thus ready to work when the hot weather comes on. Cultivation should be intensive; that is, run the wheels through; keep the foliage of the plants down after planting, and then use sufficient water to keep the soil moist and up the soil between the plants in the row. Now comes the important part. Mulch with straw manure fresh from the stable to a depth of 1½ to 2 inches, enough to thoroughly cover the ground, placing it right up around the plant. After this all other work you do thorough and but provide the necessary moisture and also do away with the cultivation. Never allow the flowers to open on the plants, but cut in the bud stage, the stamens placed in water and taken inside, and my what Roses you will see! Nothing grows under glass to compare with these. Only certain varieties of Roses are suitable—those that are good growers, producing fine buds and flowers on good stems.

Important—The list we name, as far as we know, will do well in all parts of the country. The florist in Ohio or Wisconsin should have glorious Roses to cut all summer. You can experiment with a few hundred plants. There may be other varieties that in certain localities will fill the bill as a profitable cut flower. We will consider it a favor if our customers will write us saying what are the best for this purpose in their different localities. The following varieties of Roses we have found best for summer cut flowers in Ohio and every Rose is a free bloomer, and is a gem of the first water.
DAHLIAS FOR CUT FLOWERS

We grew about ten acres of Dahlias the past season. This flower is being grown by the acre by florists for cut flowers. The bulbs we offer are divided field roots. Price, 60 cents per dozen; $4.50 per hundred; $40.00 per thousand.

CACTUS DAHLIAS

So called from their resemblance to Cactus flowers. They are characterized by long, narrow, pointed, tubular and twisted petals of graded lengths, giving the flowers a striking and attractive appearance. Grand for cut flowers.

ALFRED MORGAN—Color deep, rich, purplish-crimson; very large.

COUNTRESS OF LONSDALE—For perfection of bloom, eccentricity of stem, abundance of flower, this variety has never yet been equaled. On several of the plants we have counted over 150 perfect blooms on one plant. Is there any other garden flower that can equal it? The color is a rich salmon-pink tinted apricot. The one best Dahlia.

EARL OF PEMBROKE—Flowers large, of fine form. Color dark-violet-purple with a royal caste. A most beautiful flower.

EVA—Purest snow-white. Said by some to be the finest white variety yet raised.

FLORA—Rich, dark, rich wine-crimson, splendid shaped flowers on long upright wiry stems. Habit the ideal of perfection.

ISLAND QUEEN—Light mauve; fine form.

J. H. JACKSON—This is without doubt the finest dark Cactus Dahlia. Its velvety-black crimson-maroon shade is very striking. Large and perfect.

KRIEMHILDE—A magnificent variety bearing perfect flowers of fresh delicate pink shading to deep, rose pink. The center petals ultimately change to creamy white, giving the mature flower a captivating pink and white effect.

KEYNES WHITE—A fine white of perfect shape.

SAINT CATHERINE—Large, with long pointed petals. Color a combination of red and yellow like old gold.

These come next to the Cactus as a cut flower. They are also very showy in the garden, being unusually free bloomers. They are more formal in make up than the Cactus Dahlias, but not as formal as the show varieties, being a happy medium between the two.

CATHERINE DUD—(The Newport Dahlia.) Cherry-scarlet overlaid with crimson. Darker at the center. Its iridescence is unique and very striking, winning much favor as a cut flower variety. The fashionable flower at Newport. Especially good under artificial light.

CLIFFORD W. BRUTON—Immense size; color a clear, rich, canary-yellow. Fine for cutting. Should be in every collection.

MAHALA SHERIFF—A lovely pure white variety of perfect form.

MATCHLESS—Deep crimson, of large size; an early and late bloomer. This we consider one of the best ten Dahlias. Very showy in the garden.

MRS. CHARLES TURNER—Bright canary-yellow. Flowers of immense size, often measuring from 7 to 9 inches in diameter. This surpasses anything for size in yellow Dahlias. Try it.

NYMPHEA—Clear shrimp-pink, lightening toward the center. Very delicate and often called the Water Lily Dahlia, because of its resemblance to that flower.

OBAN—Delicate mauve shaded to fawn. A very odd shade for a Dahlia, but presents an exquisitely effective appearance.

PERLE LA TETE D’OR—Pure white, large and exceedingly free blooming. Petals are split at tip, giving the flower a unique appearance. Very desirable.

SOUVENIR DE GUSTAVE DOAZON—(New.) The largest Dahlia up to date. Can you imagine a Dahlia nine and one-half inches across? THE KING OF FLOWERS
HARDY EVERYWHERE

Herbaceous Peonies

The demand for fine Peonies is growing with each year, and every florist should have at least a small planting of them from which to supply his trade, both for the plants and for cutting the bloom. One can make no more profitable investment. The bloom if cut in the bud stage lasts for a week or more. We offer a choice of Peonies as you will find in this country. To the collector, the varieties named will be attractive. To those who wish to increase their stock of desirable sorts, this list will appeal, and to the nurserymen and dealers who buy to sell, there will be found a list of choice varieties at moderate cost. We started some years ago to grow Peonies, and we believe that no firm in this country has such a large planting of valuable sorts as we. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as G. & R. Roses, so do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the pimbolom. We guarantee our Peonies true to name. The plants we offer are divisions (from plants two to three years old), with two to five or more eyes. We always give value. We supply six at dozen, 25 at hundred, and 250 at thousand rates. For any varieties not listed write us for prices.

FESTIVA MAXIMA—This is not only the finest white in existence, but in most quarters it is regarded as the queen of all the Peonies. Mr. Harrison says: "The flower has reached the ultimate beyond which we cannot go. It combines enormous size with wondrous beauty, often seven to eight inches in diameter; color snow-white, flecked with an occasional clear purple spot on edge of center petals; in addition, it is very fragrant; a glorious flower, impossible to describe; magnificent. $2.00 per dozen; $15.00 per hundred.

There is no bloom whose unfoldings you watch with greater interest. It finally opens a solid ball of softest blush, with streaks of carmine. There it sits in all its beauty, a glorious flower in a chalice of veined marble, emitting a delightful perfume." This Peony belongs distinctly in a class by itself. $2.00 per dozen; $15.00 per hundred.

Broad, snow-white guard petals, center forming a very full, high cushion; color sulphur-yellow, fading in time to pure white; produces an enormous crop of bloom on grand stems; has more yellow in it than any Peony we grow; a grand, glorious flower—do not fail to plant it; superb in every way. $2.00 per dozen; $15.00 per hundred.

TREES

This is a remarkable species, developed from Peony Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub—the growths are short and stocky, the plant eventually attaining a height of four or more feet and consequently needing protection from winter. The large flowers are quite handsome, and the immense flowers, which usually appear some weeks ahead of the herbaceous class, are most remarkable for their size and gorgeous color. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to grow it in some protection in very cold latitudes. All shoots growing from the base should be rubbed off; any color you desire. 65 cents each; $6.00 per dozen.

CAMELLIA

This is the Famous “Japonica” of the South.

Leaves glossy-green, flowers of exquisite beauty and waxy texture. From pure white to crimson, in almost endless variation, the pure white ones generally priced above the colored varieties. Requires shade and moisture throughout the hot season. Time of blooming is in winter and early spring. Requires a moderate and uniform temperature with a little artificial heat as possible. When set with flower buds great care must be taken in watering — when left too dry the buds can be sure to drop. We have a fine assortment in all colors. Large, strong plants, two to two and one-half feet high, well branched. $1.00 each; $10.00 per dozen; $75.00 per hundred.

NEW FORCING HYDRANGEA

Arborescens Grandiflora Alba, or "Hills of Snow"

This shrub forces easily both for Easter and Decoration Day. This new Hydrangea is without question the grandest shrub or plant of any kind for forcing that is in existence today. This statement will admit no controversy.

To show how easily it can be brought into flower, a neighbor florist, just starting in the business, without any previous knowledge on forcing plants, having never forced a single plant of any kind, potted 500 field plants the 28th of October, plunging them into a cold frame. Nine weeks before Easter part of them were brought in and kept at a night temperature of 40 to 45 degrees. During the day the temperature would run from 50 to 60 degrees. They were in full flower for Easter.

The balance of the plants were brought in the 20th of March and kept about the same temperature. The first bloom perfected the 12th of May, and the lot was in full bloom for Decoration Day and—What a sight! Enough to warm the cockles in the heart of any florist. Everyone who saw them could but wonder.

The plants on which the canes were allowed to remain, when brought in, threw out branches a foot to 15 inches in length with a bloom on every tip. On those that were cut back to within four inches of the pot, the eyes broke near the base of the plant, throwing up from five to eight canes three feet high, with blooms of the purest snow white that were a foot in diameter. The lasting qualities of its flowers are one of its great money making points; as the blooms last in perfect condition from two to three weeks.

The best flowers were produced from cut back plants, potted in heavy soil without a fertilizer. Where stimulants were used, the tendency was towards a weak neck that would not hold the main bloom upright. It is imperative, to get the best results, that the plants should be subjected to hard freezing before bringing into the heat.

The Good & Reese Company:

Dear Sirs:—We notice your ad. in Florists’ Review regarding Hydrangea Arborescens Grandiflora Alba. We passed six large tubs of this variety last Easter packing several plants in each tub. We were very successful in timing them; they had 25 to 30 heads of perfect flowers. The best asset this plant has, that we discovered, you do not mention in your ad. These plants kept in perfect shape, both foliage and flower, for eight weeks in ourviron; not a leaf turned yellow. For store decoration during the spring months, nothing finer and more lasting than this plant. We give you this experience, seeing you are pushing the sale of this plant.

Very respectfully,

J. W. DUDLEY & SONS

Parkersburg, Va.
Hydrangea Paniculata
Grandiflora

A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinged with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and easily grown that success is almost certain in any kind of soil and in any situation. One-year field-grown, 12 to 15 inches, $1.25 per dozen; $8.00 per hundred. Two-year field-grown, 18 to 24 inches, $2.00 per dozen; $15.00 per hundred.

HYDANGEA PANICULATA (Tree shaped.) Fine bushy heads on three to four foot stems. $4.00 per dozen.

Holland grown plants, 6 to 8 shoots, $4.00 per dozen.

BEAUTIFUL FERNS

THE GRANDEST FERN OF THE AGE, NEPHROLEPIS "ROOSEVELT"

IMPORTANT—Some dealers say this Fern is no better than Harrisi. Roosevelt Fern will make a better plant in a six-inch pot than Harrisi will in a ten-inch pot, and that is what will make you the money every time.

It is our good fortune and great pleasure to offer this wonderful new Fern. In general characteristics it resembles the world famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston, thus making a bushier, handsomer plant. In fact, it is the best Fern for florists' use ever introduced.

The usual size to sell the Boston Fern is from a six-inch pot. Well, let us tell you that in a six-inch pot of the Roosevelt and the Boston there is no comparison. The Roosevelt almost doubles the fronds of a Boston in a six-inch pot, thus making a much more finished plant, and therefore, more salable. The pinnae are beautifully undulated, giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Some dealers are attempting to lead the trade to believe that the Roosevelt Fern is similar or identical with the variety known as Harrisi, or the Harrisi type. This is positively incorrect, as a single plant of Roosevelt grown in a six-inch pot will produce more fronds than the others will in a ten-inch.

The Roosevelt in a six-inch pot shows even more of the drooping habit than Boston, while the Harrisi is of upright growth. Then again, the number of well developed fronds in the Roosevelt are fully one-third greater in number, thus making a much more finished plant than any other Fern grown. Everybody will want this grand Fern. 2½-inch pots, $2.00 per dozen; $15.00 per hundred; $125.00 per thousand. 4-inch pots, $4.00 per dozen; $30.00 per hundred.

THE NEWPORT FERN (Nephrolepis Scottii.)

This Fern is all the rage at fashionable Newport. Identical with the Boston Fern, except it is smaller in all of its parts, and more compact, and will make more fronds in a given length of time. The fronds are lighter green than any of the Nephrolepis. The plants are never per hundred; $35.00 per thousand.

THE SPRINGFIELD FERN (Nephrolepis Springfield)

This grand Fern originated in Springfield, and more nearly resembles the variety Eukatalata than any of the other Nephrolepis. Being of upright growth it is especially valuable for vase and window box work. It also makes a fine specimen in pots. 2½-inch pots, 50 cents per dozen; $3.50 per hundred; $32.50 per thousand. 4-inch pots, $2.50 per dozen; $18.00 per hundred.
The Ostrich Plume Fern
(Nephrolepis Whitmani)

A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than the Boston Fern, which has had the most phenomenal sale of any decorative plant that has ever been grown, but which cannot be compared to the Ostrich Fern for beauty and general effectiveness. Everyone who has seen it is charmed with it. As someone has expressed it, "There is nothing like the Ostrich Plume Fern in cultivation. In decorative effect it so far out-distances the original variety that there is positively no comparison to be made."

We consider it the most valuable novelty that has been introduced in many, many years. 2'/4-inch pots, 50 cents per dozen; $3.50 per hundred; $32.50 per thousand. 4-inch pots, $2.50 per dozen; $18.00 per hundred.

Philadelphia Lace Fern
(Nephrolepis Elegantissima Improved)

This without question stands in a class by itself among Ferns. It belongs to the true Ostrich Plume type of Fern, and has this decided advantage over the others of never reverting to the Boston type. Its fronds are long, graceful and airy, resembling delicate lace. A most remarkable variety, a perfect jewel amongst Ferns. Do not fail to get this. 2'/4-inch pots, $1.00 per dozen; $8.00 per hundred; $75.00 per thousand. 3-inch pots, $2.00 per dozen; $15.00 per hundred.

The New Crested Fern
(Nephrolepis Schottii)

This is the great Crested Fern that has set all the Fern lovers to talking. Everyone admires it and sings its praises. The growth is bushy and compact, each pluma is crested, giving it a distinct and unique appearance. This Fern is a model of beauty. 2'/4-inch pots, 60 cents per dozen; $4.00 per hundred; $35.00 per thousand.

The Fluffy Ruffles Fern
(Nephrolepis Superbissima)

This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth being much more compact, and its irregular shaped fronds which give it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping, and are so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit and the fronds firm and rigid, never break down, so that it will stand more knocking around than any other Fern. The possessor of this new Fern has a distinct and different plant from all the other Ferns. It is a plant that needs to be seen to have its great value and sterling qualities appreciated. 2'/4-inch pots, 75 cents per dozen; $5.00 per hundred; $45.00 per thousand. 3-inch pots, $1.50 per dozen; $10.00 per hundred. 4-inch pots, $3.00 per dozen; $20.00 per hundred.

The Wonderful New Fern Baby's Breath
(Nephrolepis Goodii)

This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." It gives the impression of fine lace work, and has been named in the East the Philadelphia Lace Fern. It is a much finer Fern than Nephrolepis Amerpohlii. Whatever name you call it by, it is a beauty. Our reputation for it that no Fern in existence can compare with it in fullness. 2'/4-inch pots, $1.00 per dozen; $6.50 per hundred; $60.00 per thousand.

The Tarrytown Fern
(Nephrolepis Pfiersoni)

An entirely new form of the Boston Fern. The pinnae subdivide, making miniature fronds which are superimposed on the main fronds, looking as if two or even three were condensed in one, giving the plant a graceful, feathery and plump effect. 2'/4-inch pots, 50 cents per dozen; $3.00 per hundred; $32.50 per thousand.

The Old Original Sword Fern
(Nephrolepis Exaltata)

This is the parent Sword Fern from which all the Nephrolepis in commerce sprung. The fronds are narrow, and grow upright, making it a most useful variety on this account for centers of vases, for which purposes it is used by the florists by the thousand. 2'/4-inch pots, 50 cents per dozen; $3.50 per hundred; $32.50 per thousand.

Boston or Fountain Fern
(Nephrolepis Exaltata Bostoniensis)

In the vicinity of Boston no other plant is so extensively used as this graceful Nephrolepis, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared to the Ostrich Plume Fern, as they are of an entirely different growth; both have their place and both are beautiful and desirable. 2¼-inch pots, 50 cents per dozen; $3.50 per 100; $32.00 per 1,000. 3-inch pots, $1.00 per dozen; $7 per 100. 4-inch pots, $4 per 100.
